**NOTE:** If Medicare doesn't pay for **D. Implant Lens** below, you may have to pay.

Medicare does not pay for everything, even some care that you or your health care provider have good reason to think you need. We expect Medicare may not pay for the **D.** below.

D. Multifocal Implant Lens	E. Reason Medicare May Not Pay:	F. Estimated Cost:
Multifocal implant lens for the correction of presbyopia. Added work, such as work to insert, fit and test visual acuity, beyond what is required for standard cataract surgery but necessary for vision with less glasses dependence for distance and near vision.	Medicare will only pay for standard cataract surgery including the required examinations, testing, follow-up care and a conventional IOL. On May 3, 2005 Medicare established CMS ruling 05-01-R concerning astigmatic correction with IOLs that declared the physician and facility services related strictly to the astigmatism correction are not covered by Medicare and thus are the patient's financial responsibility.

If Medicare does pay, you will refund any payments I made to you, less co-pays or deductibles.

**OPTION 3.** I don't want the **D.** listed above. I understand with this choice I am **not** responsible for payment, and **I cannot appeal to see if Medicare would pay.**
